LIST OF CONTENTS

VOLUME 4 NUMBER 1

Y. Barnes, S. Houser and F. A. Barile — 1 Temporal effects of ethanol on growth, thymidine uptake, protein and collagen production in human foetal lung fibroblasts

V. Bianchi and E. Fortunati — 9 Cellular effects of an anionic surfactant detected in V79 fibroblasts by different cytotoxicity tests

G. N. Cosma, C. A. Miller, III and M. Costa — 17 The detection of DNA–protein complexes *in vitro* by an immunological assay

C. A. Ferguson and G. Audesirk — 23 Effects of DDT and permethrin on neurite growth in cultured neurons of chick embryo brain and *Lymnaea stagnalis*

K. L. Fowler, P. Collins, C. G. Brown and C. K. Atterwill — 31 Studies on the thyroid stimulating hormone-activated Na^+K^+-ATPase and iodide transporter in cultured rat thyroid cells and the effects of drugs

S. J. Gee, C. E. Green and C. A. Tyson — 37 Cyanide-induced cytotoxicity to isolated hepatocytes

R. B. Kemp, N. F. G. Beck, R. W. J. Meredith and S. H. Gamble — 47 Bull sperm as a potential model system for cytotoxicity testing *in vitro*

T. Koizumi and M. P. Waalkes — 51 Effects of zinc on the binding of cadmium to DNA: assessment with testicular interstitial cell and calf thymus DNAs

W.-U. Müller, C. Streffer and A. L. Joos — 57 Toxicity of cadmium sulphate and methylmercuric chloride applied singly or in combination to early mouse embryos *in vitro*

A. Poole, R. Angus, L. Catto and R. B. Jones — 63 Studies on the *in vitro* trophic effects of a novel thyromimetic

R. G. Schnellmann — 71 The cellular effects of a unique pesticide sulfluramid (*N*-ethylperfluorooctane sulphonamide) on rabbit renal proximal tubules

T. Tsutsui, N. Suzuki, H. Maizumi and J. C. Barrett — 75 Comparison of human versus Syrian hamster cells in culture for induction of mitotic inhibition, binucleation and multinucleation, following treatment with four aneuploidogens

Forthcoming Papers — 85

VOLUME 4 NUMBER 2

N. J. Bunce, J. P. Landers, J. S. Nakai, M. J. Winhall and S. H. Safe — 87 *In vitro* thermal inactivation of hepatic Ah receptors from several mammalian species

M. F. Khan, J. E. Gallagher and A. R. Brody — 93 Effect of proteins and lipids of the alveolar lining layer on particle binding and phagocytosis

C. Kiyohara, T. Hirohata, N. Mohri and Y. Masuda — 103 Effects of 3-methylsulphonyl-4,5,3′,4′-tetrachlorobiphenyl and 7,8-benzoflavone on mouse liver aryl hydrocarbon hydroxylase activity *in vitro*

M. Marinovich, A. Sanghvi, S. Colli, E. Tremoli and C. L. Galli 109 Cytoskeletal modifications induced by organotin compounds in human neutrophils

K. L. Mohr and P. K. Working 115 An *in vitro* technique to detect dominant lethal mutations induced in mouse oocytes by ethyl methanesulphonate exposure *in vivo*

D. L. Morgan, J. E. Humphreys, J. M. Bilotta, J. C. Nixon, G. E. Hatch and V. E. Steele 123 Comparison of cadmium cytotoxicity in human versus rat nasal epithelial cells *in vitro*

A. M. Saillenfait, I. Langonne, J. P. Sabate and J. de Ceaurriz 129 Interaction between mercuric chloride and zinc in rat whole-embryo culture

R. C. Scott and M. A. Corrigan 137 The *in vitro* percutaneous absorption of diquat: a species comparison

R. S. Shrivastava, M. H. Ratinaud and R. Julien 143 Differential toxicity of cytosine arabinoside to cell kinetics in normal sheep sinus cells and sheep tumour cell line *in vitro*

G. Van Maele-Fabry, F. Delhaise and J. J. Picard 149 Morphogenesis and quantification of the development of post-implantation mouse embryos

Announcement 157

Forthcoming Papers 158

Corrigendum 159

VOLUME 4 NUMBER 3

Editorial Announcement i

R. Chibber and M. J. Ord 161 Mechanism of cadmium resistance in cultured Indian muntjac fibroblasts

E. Eder, M. Weidenmann, C. Deininger and W. Kütt 167 The relationship between mutagenicity in *His* G46 Salmonella and the O^6-guanine alkylation in bacterial DNA by monofunctional methanesulphonates

J. R. Fry, M. J. Garle, A. H. Hammond and A. Hatfield 175 Correlation of acute lethal potency with *in vitro* cytotoxicity

H. M. Mehendale and S. D. Ray 179 Inhibition of cell division in hepatoma cell cultures by chlordecone and carbon tetrachloride combination

T. Miura and Y. Takahashi 185 The induction by monochlorodibenzofuran isomers of xenobiotic metabolizing systems in cell lines derived from rat and human hepatoma

R. P. Moody and P. A. Martineau 193 An automated *in vitro* dermal absorption procedure: I. Permeation of ^{14}C-labelled *N,N*-diethyl-*m*-toluamide through human skin and effects of short-wave ultraviolet radiation on permeation

K. Münter, D. Mayer and H. Faulstich 201 Disappearance of phalloidin-transporting ability in rat hepatocytes in culture and retardation of this process by demethylphalloin or antamanide

P. D. Williams, M. K. Buening, C. L. Gries, G. K. Hanasono, D. A. Laska, R. N. Tamura and R. A. Heim 207 Comparative toxicity of oral cephalosporin antibiotics in the rabbit and in a rabbit kidney cell line (LLC-RK_1)

Brief Communication

M. J. Arranz and M. F. W. Festing 211 Prior use of the neutral red assay and reduction of total protein determination in 96-well plate assays

Review Paper

M. Taub 213 The use of defined media in cell and tissue culture

Announcements 227

Forthcoming Papers 228

VOLUME 4 NUMBER 4/5

Second International Conference on Practical *in vitro* Toxicology

W. E. Parish 229 Chairman's Introductory Remarks

Session 1: Irritation, Inflammation and Sensitisation (Chairman, W. E. Parish)

W. E. Parish 231 Inflammatory mediators applied to *in vitro* toxicology: studies on mediator release and two-cell systems

C. A. Reinhardt 242 *In vitro* predictive tests for eye irritants

B. M. E. von Blomberg-van der Flier and R. J. Scheper 246 *In vitro* tests with sensitized lymphocytes—relevance for predictive allergenicity testing

M. F. Leung, K. Geoghegan-Barek, G. B. Zamansky and I. N. Chou 252 Microtubule disassembly induced by sensitizing halogenated nitrobenzene derivatives

S. J. Reader, V. Blackwell, R. O'Hara, R. H. Clothier, G. Griffin and M. Balls 264 Neutral red release from pre-loaded cells as an *in vitro* approach to testing for eye irritancy potential

Y. H. M. van Erp and P. J. J. M. Weterings 267 Eye irritancy screening for classification of chemicals

M. J. Edwards, P. J. Dykes, M. R. O. Donovan, V. R. Merrett, H. E. Morgan and R. Marks 270 Induction of heat shock proteins as a measure of chemical cytotoxicity

L. Segal, D. Riedel and L. Ritter 277 Evaluation of normal human epidermal keratinocyte cultures as a test system for the assessment of the dermal irritancy of pesticides

L. Gajjar and D. J. Benford 280 Comparison of cultured keratinocytes and fibroblasts as models for irritancy testing *in vitro*

K. E. Driscoll, J. M. Higgins, M. J. Leytart and L. L. Crosby 284 Differential effects of mineral dusts on the *in vitro* activation of alveolar macrophage eicosanoid and cytokine release

G. F. Gerberick, C. A. Ryan, E. R. Fletcher, D. L. Sneller, and M. K. Robinson 289 An optimized lymphocyte blastogenesis assay for detecting the response of contact sensitized or photosensitized lymphocytes to hapten or photohapten modified antigen presenting cells

F. G. Bartnik, W. F. Pittermann, N. Mendorf, U. Tillman and K. Künstler 293 Skin organ culture for the study of skin irritancy

I. Kimber, S. Quirke and M. H. Beck 302 Attempts to identify the causative allergen in cases of allergic contact dermatitis using an *in vitro* lymphocyte transformation test

R. U. Pendlington and M. D. Barratt 307 Photochemical binding of photoallergens to human serum albumin: a simple *in vitro* method for screening potential photoallergens

K. A. F. O'Brien, P. A. Jones and J. Rockley 311 Evaluation of an agarose overlay assay to determine the eye irritation potential of detergent-based products

V. C. Gordon, C. P. Kelly and H. C. Bergman 314 Applications of the EYTEX™ method

W. W. Lovell and D. J. Sanders 318 Screening test for phototoxins using solutions of simple biochemicals

R. S. Lawrence, D. M. Ackroyd and D. L. Williams 321 The chorioallantoic membrane in the prediction of eye irritation potential

J. V. Friend, R. W. R. Crevel, T. C. Williams and W. E. Parish 324 Immaturity of the inflammatory response of the chick chorioallantoic membrane

M. Rosenbruch and A. Holst 327 The chick embryo yolk-sac blood vessel system as an experimental model for irritation and inflammation

R. J. Soto and V. C. Gordon 332 An *in vitro* method for estimating ocular irritation

Session 2: Target Organ Toxicity (Chairman, G. Hard)

A. J. Gandolfi and K. Brendel 337 *In vitro* systems for nephrotoxicity studies

C. K. Atterwill 346 Neurotoxicity *in vitro*: model systems and practical applications. Comparative studies with the cholinergic neurotoxin in primary brain cultures and in rabbit retina *in vivo*

R. J. Evans and D. J. Fawthrop 356 Species-specific toxic effects of α-chlorohydrin and 6-chloro-6-deoxyglucose on astrocytes

S. Steer, W. Lasek, R. H. Clothier and M. Balls 360 An *in vitro* test for immunomodulators?

M. Toraason, J. A. Krueger, M. J. Breitenstein and T. F. Swearengin 363 Depression of contractility in cultured cardiac myocytes from neonatal rat by carbon tetrachloride and 1,1,1-trichloroethane

C. K. Atterwill and K. F. Fowler 369 A comparison of cultured rat FRTL-5 and porcine thyroid cells for predicting the thyroid toxicity of xenobiotics

P. A. Duffy and F. R. McNae 375 *In vitro* toxicity of antibiotics to LLC-RK_1 rabbit kidney cells

H. Ali, L. Khalaf, P. J. Nicholls and A. Poole 381 Comparison of *in vitro* and *in vivo* haemotoxic effects of aminoglutethimide and glutethimide

J. A. Bacon, D. A. Linseman and T. J. Raczniak 384 *In vitro* cytotoxicity of tetracyclines and aminoglycosides in LLC-PK_1, MDCK and Chang continuous cell lines

H. Tähti and S. Hyppönen 389 The neurotoxic effect of carbon disulphide, *N*-hexane and its metabolites studied with erythrocyte and synaptosome membranes *in vitro*

R. Gonzalez, P. Redon, B. Lakhdar, L. Potaux, J. Cambar and M. Aparicio 391 Cyclosporin nephrotoxicity assessed in isolated human glomeruli and cultured mesangial cells

N. Castaing, D. Merlet and J. Cambar 396 Cis-platin cytotoxicity in human and rat tubular cell cultures

S. Romet, A. Dubreuil, A. Baeza, A. Moreau, D. Schoevaert and F. Marano 399 Respiratory tract epithelium in primary culture: effects of ciliotoxic compounds

C. A. Tyson, J. E. Dabbs, P. M. Cohen, C. E. Green and R. L. Melnick 403 Studies of nephrotoxic agents in an improved renal proximal tubule system

B. F. Trump, I. K. Berezesky, K. A. Elliget, M. A. Smith and P. C. Phelps 409 Nephrotoxicity *in vitro*: role of ion deregulation in signal transduction following injury—studies utilizing digital imaging fluorescence microscopy

Session 3: Hepatocytes (Chairman, M. Chamberlain)

A. Guillouzo, F. Morel, D. Ratanasavanh, C. Chesne and C. Guguen-Guillouzo 415 Long-term culture of functional hepatocytes

F. Bieri, S. Muakkassah-Kelly, F. Waechter, P. Sagelsdorff, W. Stäubli and P. Bentley 428 The significance of *in vitro* studies on peroxisome proliferation

C. Vons, J. P. Pegorier, M. A. Ivanov, J. Girard, C. Melcion, A. Cordier and D. Franco 432 Comparison of cultured human hepatocytes isolated from surgical biopsies or cold-stored organ donor livers

F. Goethals, D. Deboyser, V. Lefebvre, I. De Coster and M. Roberfroid 435 Adult rat liver slices as a model for studying the hepatotoxicity of vincaalkaloids

V. Rogiers, Y. Vandenberghe, A. Callaerts, W. Sonck and A. Vercruysse 439 Effects of dimethylsulphoxide on phase I and II biotransformation in cultured rat hepatocytes

J. N. Lawrence and D. J. Benford 443 Toxicity of paracetamol and cyclophosphamide in monolayer cultures of rat and human hepatocytes

U. Wormser and S. Ben-Zakine 449 The liver slice system: an *in vitro* acute toxicity test for assessment of hepatotoxins and their antidotes

J. H. Fentem, B. Foster, C. O. Mills, R. Coleman and J. K. Chipman 452 Biliary excretion of fluorescent cholephiles in hepatocyte couplets: an *in vitro* model for hepatobiliary and hepatotoxicity studies

F. Morel, P. Beaune, D. Ratanasavanh, J.-P. Flinois, F. P. Guengerich and A. Guillouzo 458 Effects of various inducers on the expression of cytochromes *P*-450 IIC8, 9, 10 and IIIA in cultured adult human hepatocytes

M. T. Donato, J. V. Castell and M. J. Gómez-Lechón 461 Prolonged expression of biotransformation activities of rat hepatocytes co-cultured with established cell lines

Session 4: Metabolism and Toxicokinetics (Chairman, J. A. Timbrell)

J. R. Fry, M. J. Garle and A. H. Hammond 467 Competing pathways in metabolism-mediated cytotoxicity *in vitro*

A. J. Dean and R. J. Chenery 474 A study of the metabolism and kinetics of SK&F 94120 and two structural analogues in rat hepatocytes and *in vivo*

R. Bechter and G. D. C. Terlouw 480 Xenobiotic metabolism in the isolated conceptus

M. J. Garle and J. R. Fry 493 Reactive metabolite formation catalysed by cytochrome *P*-450j

Z. Ruben, S. N. Anderson and G. C. Fuller 497 The susceptibility of various cultured cells to induction of clear cytoplasmic vacuoles by disobutamide

D. J. Benford, M. Dixit and B. Foster 506 Variations in the response of cell lines to metabolism-mediated toxicity

S. J. Reader, R. H. Clothier, J. Yu and M. Balls 509 The *in vitro* effects and metabolism-mediated cytotoxicity of phorone, a glutathione-depleting agent

E. Hallier, R. Jaeger, S. Deutschmann, H. M. Bolt and H. Peter 513 Glutathione conjugation and cytochrome *P*-450 metabolism of methyl chloride *in vitro*

C. den Besten, S. A. Körösi, J. A. Beamand, D. G. Walters and B. G. Lake 518 Studies on the mechanism of coumarin-induced toxicity in rat hepatocytes

C. A. Bearne, A. K. Mallett, I. R. Rowland and W. E. Brennan-Craddock 522 Continuous culture of human faecal bacteria as an *in vitro* model for the colonic microflora

M. Urtizberea, M. Rochdi, F. J. Baud and J. M. Scherrmann 526 Toxicokinetic–toxicodynamic models describing the relation of plasma and red blood cell potassium with plasma digitalis in acute human digitalis poisoning

W. E. Parish, J. Wood, W. Groger and R. K. Sharma 532 An apparatus to simulate metabolism of ingested substances

S. A. Knadle, C. E. Green, M. Baugh, M. Vidensek, S. M. Short, X. Partos and C. A. Tyson 537 Trichloroethylene biotransformation in human and rat primary hepatocytes

Session 5: Reproductive and Developmental Toxicity (Chairman, T. J. B. Gray)

R. E. Chapin and J. Phelps 543 Recent advances in testicular cell culture: implications for toxicology

R. J. Aitken 560 Development of *in vitro* tests of human sperm function: a diagnostic tool and model system for toxicological analyses

P. W. J. Peters and A. H. Piersma 570 *In vitro* embryotoxicity and teratogenicity studies

W. J. Bacon, P. A. Duffy and K. Jones 577 Studies on variability of the micromass teratogen test

O. K. Wilby and J. M. Tesh 582 The Hydra assay as an early screen for teratogenic potential

P. T. Tomkins 584 Seminal plasma superoxide dismutase activity following radiotherapy: protection by the exogenous enzyme and effects of intracellular inhibition

L. M. Hulme, K. A. Atkinson, R. H. Clothier and M. Balls 589 The potential usefulness of a differentiating teratocarcinoma cell line in *in vitro* toxicity testing

G. P. Daston, J. L. Burns and M. H. Chestnut 593 Changes in visceral yolk sac ultrastructure after exposure of rat embryos to selected teratogens *in vitro*

S. Klug, C. Lewandowski, L. Wildi and D. Neubert 598 Bovine serum: an alternative to rat serum as a culture medium for the rat whole embryo culture

P. L. Ribeiro and E. M. Faustman 602 Embryonic micromass limb bud and midbrain cultures: different cell cycle kinetics during differentiation *in vitro*

J. F. Parsons, J. Rockley and M. Richold 609 *In vitro* micromass teratogen test: interpretation of results from a blind trial of 25 compounds using three separate criteria

O. K. Wilby, J. M. Tesh and P. R. Shore 612 Application of the Hydra regeneration assay: assessment of the potential teratogenic activity of engine exhaust emissions

A. E. C. Tesh, O. K. Wilby and J. M. Tesh 614 Effects of inorganic nitrates on growth and development of Hydra

C. Verseil and J. Stadler 616 Rat post-implantation culture: production of 5–8-somite embryos by a time-controlled mating procedure

J. Stadler and C. Verseil 618 Data on development of post-implantation rat embryos in a 24-hr culture

S. J. Ward and D. R. Newall 620 The micromass test: is it subject to strain variation?

P. F. Uphill, S. R. Wilkins and J. A. Allen 623 *In vitro* micromass teratogen test: results from a blind trial of 25 compounds

Session 6: Carcinogenesis (Chairman, J. A. Styles)

N. E. Fusenig, P. Boukamp, D. Breitkreutz, A. Hülsen, S. Petrusevska, P. Cerutti and E. Stanbridge 627 *In vitro* transformation of human skin epithelial cells: role of *RAS* oncogene in malignant progression

J. E. Trosko, C.-C. Chang and B. V. Madhukar 635 *In vitro* analysis of modulators of intercellular communication: implications for biologically based risk assessment models for chemical exposure

M. Richold 644 Practical application of new approaches in genetic toxicology

B. F. Trump, I. K. Berezesky, M. W. Smith, R. T. Jones, P. C. Phelps, M. Miyashita and C. C. Harris 646 Studies of human bronchial epithelium *in vitro*: changes of $[Ca^{2+}]_i$ in relation to injury, growth and differentiation

P. Balakrishna Murthy 654 Induction of sister chromatid exchanges in NIH 3T3 cells transformed by DNA from mice given cyclophosphamide

K. Sasaki, H. Mizusawa, M. Ishidate and N. Tanaka 657 Transformation of *ras* transfected BALB 3T3 clone (Bhas 42) by promoters: application for screening and specificity of promoters

E. Eder and J.-P. Zugelder 661 DNA-binding studies with allylchloride and allylbromide using the isolated perfused rat liver technique

Session 7: Strategic Applications (Chairman, M. Balls)

I. F. H. Purchase	667	Strategic considerations in industry's use of *in vitro* toxicology
M. J. van den Heuvel and R. J. Fielder	675	Acceptance of *in vitro* testing by regulatory authorities
D. V. Parke, C. Ioannides and D. F. V. Lewis	680	Computer modelling and *in vitro* tests in the safety evaluation of chemicals—strategic applications
D. W. Roberts and D. A. Basketter	686	A quantitative structure–activity/dose relationship for contact allergenic potential of alkyl group transfer agents
B. Ekwall, M. J. Gómez-Lechón, S. Hellberg, I. Bondesson, J. V. Castell, R. Jover, J. Högberg, X. Ponsoda, L. Romert, K. Stenberg and E. Walum	688	Preliminary results from the Scandinavian multicentre evaluation of *in vitro* cytotoxicity (MEIC)
R. H. Clothier and M. Balls	692	Validation of alternative toxicity tests: principles, practices and cases
M. Chamberlain and W. E. Parish	694	Hazard and risk based on *in vitro* test data
W. Sterzel, F. G. Bartnik, W. Matthies, W. Kästner and K. Künstler	698	Comparison of two *in vitro* and two *in vivo* methods for the measurement of irritancy
S. Kalweit, R. Besoke, I. Gerner and H. Spielmann	702	A national validation project of alternative methods to the Draize rabbit eye test
M. Warren, K. Atkinson and S. Steer	707	*INVITTOX*: the ERGATT/FRAME data bank of *in vitro* techniques in toxicology
M. Červinka and V. Půža	711	*In vitro* toxicity testing of implantation materials used in medicine: effects on cell morphology, cell proliferation and DNA synthesis
U. Tillmann, D. Pollet and H. G. Miltenburger	717	Cytotoxicity detected by image analysis: a new method for the quantification of survival, mortality, recovery and growth of mammalian cell cultures
P. Zaninelli and D. Barone	720	Validation of cell substrates used for human biologicals: an overview of international regulatory documents
G. Zbinden	723	Concluding Remarks

VOLUME 4 NUMBER 6

M. D. Aleo, M. L. Taub, J. R. Olson and P. J. Kostyniak	727	Primary cultures of rabbit renal proximal tubule cells: II. Selected phase I and phase II metabolic capacities
P. G. Andrews, S. E. Owens and J. M. Siegfried	735	Induction of micronuclei in cultured human bronchial epithelial cells by direct-acting carcinogens
S. A. Bruschi and B. G. Priestly	743	Implication of alterations in intracellular calcium ion homoeostasis in the advent of paracetamol-induced cytotoxicity in primary mouse hepatocyte monolayer cultures

E. Combrier, P. Métézeau, X. Ronot, H. Kiefer-Gachelin and M. Adolphe 751 Comparative assessment of *in vitro* toxicity of xenobiotics using flow cytometry and spectrophotometry

C. E. Hastings, Jr, S. A. Martin, J. R. Heath, III, D. E. Mark, J. L. Mansfield and J. O. Hollinger 757 The effects of ethylene oxide sterilization on the *in vitro* cytotoxicity of a bone replacement material

W. W. Ku, D. Slowiejko, L. L. Bestervelt, M. R. Buroker and W. N. Piper 763 Effects of lead on haem biosynthesis during erythroid differentiation *in vitro*

F. Spezia, G. Lorenzon, R. Fournex and B. Vannier 771 Specific teratogenic action of 2,4,5-trichlorophenoxyacetic acid on mouse and rat whole-embryo cultures

M. Stefanidou, M. Georgiou, C. Maravelias and A. Koutselinis 779 The effects of morphine, cocaine, amphetamine and hashish on the phagocytosis of the protozoon *Tetrahymena pyriformis* strain W

U. Wormser, S. Ben Zakine, E. Stivelband, O. Eizen and A. Nyska 783 The liver slice system: a rapid *in vitro* acute toxicity test for primary screening of hepatotoxic agents

U. Wormser, S. Ben Zakine and A. Nyska 791 Cadmium-induced metallothionein synthesis in the rat liver slice system

Meeting Report

C. K. Atterwill and I. Kimber 795 Hyperplastic and hypertrophic responses in toxicity and carcinogenesis
